Faith directs restoration of relationship with the Creator God,  
not the created earth!

Romans 5:1 righteous by faith = peace with God thru Jesus Christ

Creation Care will never restore your broken relationship with God!

The Christian concern about the environment flows out of a restored relationship with God, it doesn't provide restoration.

**Justice Concepts** Psalm 35:3 God promote equity and justice

Striving for JUSTICE requires a certain level of INJUSTICE!

Madness and myth don't require JUSTICE -

What are the validated problems with our environment?

Pollution of water and air

Diminishing water supply

Garbage amounts

Destruction of wildlife sanctuaries

Global warming

Account for all our actions...

...consequences toward other humans

...consequences toward creation
